The Honorable Maggie Toulouse - Oliver  
New Mexico Secretary of State  
325 Don Gaspar, Suite 300  
Santa Fe, New Mexico 87501

Dear Madame Secretary,

Please accept this letter as our application for recertification of the AutoVote™ E-PollBook Ballot Management System Version 12.3 pursuant to Sections 1-9-7.4 and 1-9-14 NMSA 1978. The AutoVote System, was tested by SLI Global Solutions, an Independent Testing Authority, accredited by the National Institute of Standards and Technology, and certified by the New Mexico Voting System Certification Committee. As requested, we have provided a copy of the SLI report and the printer testing and certification document from Dominion Voting Systems.

Automated Election Services has made hardware changes regarding printer models for ballot and report printing. These changes are in keeping with system performance requirements as printer manufacturers discontinue legacy models and bring newer models on line to replace them. Software modifications specifically for exchanging data between AutoVote and SERVIS have been made based on requirements set forth by the Secretary of State. Additional reporting capabilities have also been added.

We affirm that the AutoVote E-PollBook Ballot Management System Version 12.3 currently meets all of the applicable voting system requirements as described in Sections 1-9-20 through 1-9-22 NMSA 1978 and the requirements at the time of testing and certification by SLI, as described on pages 7 through 11 of the SLI test report provided.

We are available for questions or system demonstrations at the convenience of your office and the New Mexico Voting System Certification Committee.

Terry Rainey

President, Automated Election Services
