2024 NOMINATING PETITION CALCULATIONS

Introduction

This publication has been prepared by the Bureau of Elections to serve as a reference for candidates seeking office in the 2024 Primary Election. This publication contains information regarding nominating petition calculations pursuant to Article 9 of the New Mexico Election Code. While independent and minor party candidates do not participate in the Primary Election, they may be required to circulate petitions and file declarations of candidacy shortly following the Primary Election (a supplemental publication with those calculations will be available in 2024).

For candidates interested in public financing, please refer to the information on the Secretary of State’s website: <https://www.sos.nm.gov/candidate-and-campaigns/2024-new-mexico-pubic-financing-information/>.

Please contact the Bureau of Elections at (505) 827-3600, and select option 2, or email the office with additional questions: elections@sos.nm.gov.

Federal Office

Office	% Threshold	Total
President of the United States	0.5%	3,561

* New Mexico statute 1-8-51, nominating petitions for an independent candidate for President of the United States shall be signed by a number of voters equal to the number of signatures required to form a new political party in the State of New Mexico. Forming a new political party in the State of New Mexico would require one-half of one percent of the total number of votes cast of 712,256 for governor at the last preceding general election (2022); that number equals to 3,561 nominating signatures of registered voters who reside in the State of New Mexico.
