May 30, 2025

The Honorable Maggie Toulouse-Oliver
New Mexico Secretary of State
325 Don Gaspar, Suite 300
Santa Fe, New Mexico 87501

Dear Madam Secretary,

Please accept this letter of application for recertification of the AutoVote™ EPollBook Ballot Management system, Ver. 12.3 pursuant to Section 1-9-7.4 NMSA 1978. The AutoVote system has been tested by SLI Global Solutions, an independent testing authority accredited by the National Institute of Standards and Technology as well as having been certified by the New Mexico Voting System Certification Committee. We are providing a copy of the SLI testing report as well as the most recent Printer Certification document from Dominion Voting Systems.

The AutoVote system has maintained its core operational configurations through the upgrade of Microsoft operating systems as well printer manufacturers replacement of legacy printer models in order to incorporate the latest technology enhancements and performance improvements.

AES affirms that AutoVote 12.3 currently meets the applicable voting system requirements of Sections 1-9-20 through 1-9-22 NMSA 1978 and the requirements for certification by the independent testing authority.

We would be happy to make ourselves available for any questions or clarifications regarding the AutoVote system or anything else that you may require.

As always, we look forward to working with your office as you continue to make New Mexico elections a model for the rest of the nation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jennifer Rain', is written over a light blue horizontal line.
